

Aerial Tree Rescue

At a glance...

Training (Only)

Duration Notes: 2 days

Prerequisites: Before doing this course you will need to have done the Lantra Awards Level 2 Award in Accessing a Tree Using a Rope and Harness or equivalent.

Introduction

Learn How to Rescue stranded climbers with our Aerial Rescue course.

This course is not an alternative to achieving the qualification in this area. Professional Users must achieve the Level 3 Award in Aerial Tree Rescue Operations.

Overview in brief

Being able to climb a tree is essential for many tasks that an Arborist will need to carry out, however things don't always go to plan and when a climber gets stuck in a tree they will need to be rescued by someone trained in Aerial rescue.

Our Aerial Tree Rescue course will cover all that you need to know to carry out rescues from a tree.

This is a hands-on course that delivers both practical skills and health and safety guidance as well as demonstrating that you and your employer have completed sufficient training to meet the Provision and Use of Work Equipment Regulations 1998 (PUWER).

The finer details

This is a non-assessed course.

You will receive a Certificate of Attendance once completed.

The course will prepare you to undertake the Lantra Awards Level 3 Award in Aerial Tree Rescue Operations.

Worth noting: Inexperienced operators might need more time to fully master all the elements of our course.
