

Combi Tractor Mower Refresher

At a glance...

Training (with Assessment) Competence with Modules

Duration Notes:

The expected duration for the course is one day, however please note this may vary according to factors such as level of experience, modules or attachments selected, or the ratio of instructors to learners.

Introduction

Refresh your skills with our tractor and mower combined course.

Overview in brief

Both tractor and mower are essential pieces of equipment, used across horticultural and landscape businesses.

As with all machinery operating and looking after a combi tractor mower safely and efficiently is absolutely vital.

The finer details

This is a shortened version of the full Combi Tractor course. Our one-day course will refresh the skills you have gained and with an assessment following your training, you can rest assured you are up to the mark.

Who should attend?

If you have already taken our Combi Mower course then this refresher is recommended every five years.

What will be covered?

By the end of the course, you'll be able to:

- Understand the main causes of accidents involving tractors and mowers
- Identify the risks associated with the use of tractor and mowers
- Elect appropriate personal protective equipment (PPE)
- Identify and understand the function of all instruments and controls
- Carry out daily checks as indicated in the operator's handbook
- Carry out pre-start checks
- Identify and report any faults
- Perform after-use maintenance
- Be aware of different cutting mechanisms available
- Set up and adjust the cutting mechanism to achieve the required standard
- Understand requirements for travelling on the public highway
- Be able to load and transport the machine (if appropriate)
- Recognise the safe working environment for tractor and mowers combination on typical ground surface condition
- Assess the suitability of any ground before driving over it
- Perform adjustments to a tractor and mower combination to increase its safety
- Operate the machine in a safe and competent manner on varied terrain suitable to the equipment used
