

Level 3 Award in Aerial Tree Rescue Operations

At a glance...

Qualification

Prerequisites:

Before undertaking this qualification you must have achieved the following qualification:

- Lantra Awards Level 2 award in accessing a tree using a rope and Harness or industry recognised equivalent.

Introduction

Demonstrate your knowledge of Aerial Tree Rescue with Lantra.

These qualifications are requirements for Professional Users to operate chainsaws in the UK.

Overview in brief

This qualification is designed to meet the training gaps within this sector.

It will encourage you to develop your knowledge, understanding and skills so you can work under minimal guidance or direction.

You'll be able to prove your competence in forestry/arboriculture operations and show evidence of your ability to meet licence to practice standards.

This will help boost your employment prospects.

For professional chainsaw operators working in forestry and arboriculture the industry recommendation is that for 'high risk' activities the minimum level of adequacy of training is to a certificate of competence or

nationally recognised qualification where assessment is carried out independently of the training. **This qualification meets this requirement'**

The finer details

Our course offers a balanced mix of theory and practical sessions across 22 hours of guided learning.

It covers the knowledge and skills required to safely carry out aerial rescue operations.

This will include knowing, and being able to work to, industry best practice standards.

Quality Assurance policies are in place to ensure that all assessments meet the independent assessment requirements for this sector.

Who should attend?

This qualification is designed to meet the training gaps within these sectors and will encourage you to develop your knowledge, understanding, and skills to support their role(s) and develop your career in varied forestry and arboriculture situations under minimal guidance or direction.

This Qualification will enhance the ability of you to work safely, effectively and efficiently in the workplace, reducing unnecessary risks to themselves and others.

Due to the nature of the Qualification a minimum level of fitness would be required for specific operations. Whilst we would not want to disadvantage any learner it is an essential requirement.

Several of the units are identified as being relevant towards certain work-based qualifications developed, approved and supported by Lantra Sector Skills Council. Learners undertaking these units may have the credit gained counted towards the achievement of work-based qualifications approved by the sector(s).

What will be covered?

By the end of this course, you'll be able to:

- Confirm occupational competence and/or licence to practice
- Confirm your ability to meet licence to practice or other legal requirements made by the relevant sector, professional or industry
- Gain knowledge and understanding across a range of forestry and arboriculture functions and activities
- Assess your ability to work effectively in a forestry and arboriculture environment, both independently and as part of a team

- Be able to review and develop your own practices and carry out a range of practical forestry and arboriculture tasks to the required industry standard
- Improve your awareness of health and safety legislation and how individuals can contribute to the Health and Safety Executive's (HSE) agenda.
