## At a glance...

### Training (with Assessment) Competence with Modules

|                  |   |
|------------------|---|
| Duration Notes:  | 1.5 days  |
| Delivery Method: | Theory/practical  |
| Prerequisites:   | You must have completed a Felling and Processing Trees up to 200mm course before attending the refresher. |

## Introduction

There is no doubting the chainsaw's usefulness – nor its power.

But in the wrong hands, it is also a very dangerous machine.

This is a hands-on course that refreshes both practical skills and health and safety guidance as well as demonstrating that you and your employer have completed sufficient training to meet the **Provision and Use of Work Equipment Regulations 1998 (PUWER)**.

This course is for those who are already operating in industry and need to complete refresher training as set out in the Chainsaws at Work INDG317 document.

## Overview in brief

From first cuts to full-on felling, our refresher course will ensure you are up-to-date on all you need to know about using a chainsaw.

This hands-on refresher course delivers updates your practical skills and health and safety one-day as well as demonstrating that you and your employer have completed sufficient training to meet the **Provision and Use of Work Equipment Regulations 1998 (PUWER)**.

## The finer details

This is a refresher course to hone knowledge and skills in felling and processing trees up to 200mm.

Regular refresher training will ensure that you meet the guidance set out in HSE guidance documents.

## Who should attend?

This course is suitable for learners who are occasional users and don't intend to work in the arboricultural or forestry industries or use a chainsaw as a central part of their working activity.

## What will be covered?

By the end of this course, you will have updated your skills and knowledge of felling and processing trees up to 200mm.

You will also be able to demonstrate that you have refreshed your original training, in line with HSE guidance documents.
