

12 Impact Protection Vehicle (IPV)

At a glance...

NHSS

Duration Notes: 1 day

Delivery Method: Classroom and practical

Recognised by: National Highways, Transport Scotland, Welsh Assembly and Transport NI on their motorways and high speed dual carriageways rural and urban road networks

Prerequisites: Learners must have completed the Temporary Traffic Management Basic Course (TTMBC) if new to the industry or if they do not hold other current NHSS 12ABCD TTM skills registration cards/certificates (excluding 12D M7). They are required to gain 3 months 'on the job' experience prior to attending the 12AB General Operative course, if they are to complete 'Live Lane' assessments (see below).

IPV refresher training requires learners to have an in date IPV skill, which includes the 6 month grace period for renewals. Those whom have IPV skills that have expired by more than 6 months must be retrained and assessed as new entrants.

Introduction

NHSS Impact Protection Vehicle IPV

The finer details

This course will cover:

- IPV qualification routes
- IPV roles, responsibilities & limitations
- Health & safety at work
- Current reference documentation, associated with IPVs
