Fencing and Gate Installation - Post and Panel - Assessment Only

At a glance…

Assessment Only Competence

Duration Notes: The expected duration for the course is half a day, however please note this may vary according to factors such as level of experience, modules or attachments selected, or the ratio of Instructors to Learners.

Prerequisites: Learners must successfully achieve the Fencing and Gate Installation Foundation Course before undertaking this module.

Introduction

Becoming proficient in installing this fencing is an essential and valued installer's skill for any contract, large or small.

Overview in brief

This course will assess your knowledge and practical ability to install post and panel fencing safely, protecting both you and those around you.

The finer details

This assessment course has been developed to assess your knowledge and understanding of post and panel fencing installation.

The course duration will depend on the number of Learners requiring assessment and will be from half a day to one day.

The assessment will consist of a multiple choice question paper and practical assessment. Assessment will cover:

- Types of Fence

- How to Install Panel Fencing.

If successful in meeting the required standards assessed, you will be awarded a certificate of competence and a Lantra skills ID card.

In order to ensure you are given the appropriate information and guidance to work efficiently and safely, you must complete the Fencing and Gate Installation Foundation course (FHW06) before moving on to this system specific course.

Who should attend?

This course is for you if you need to prove your ability in safely installing post and panel fencing or renew your Lantra Skills card.

As you'll appreciate, this course contains some practical activity that will require a minimum level of fitness. If you have any concerns, please speak to the Provider.

What will be covered?

At the end of this course, you will have proved your ability to:

- Describe the purpose and components of post and panel fence systems
- Describe the materials and installation requirements for post and panel fence systems
- Select and prepare tools, equipment and resources for post and panel fence systems
- Demonstrate how to calculate the required materials for post and panel fence systems
- Demonstrate how to position and fix posts at specified lines, levels and angles
- Prepare and install post and panel components to meet specifications
- Position and securely fix post and panel components at specified lines, levels and heights
- Demonstrate how to inspect, repair and test post and panel fence systems.
