

Agriculture Health and Safety: How to Meet Your Legal Responsibilities (E-Learning)

At a glance...

E-Learning

Duration Notes:	Duration: 2 - 2.5 hours (4 - 6 hours including resources) approx.
Delivery Method:	E-learning
Prerequisites:	Internet access through PC, laptop or tablet

Introduction

This course, developed with HSE assistance, will help you prepare for an inspection and help you identify and manage safety risks.

Overview in brief

If you control or manage a farm, you are legally responsible for your safety and that of your employees, contractors, visitors, and anyone affected by your work.

The finer details

This course consists of 8 modules, covering topics such as falls from height, falling objects, livestock, vehicles, children, electricity, and drowning and asphyxiation.

This E-Learning course consists of training only and a Certificate of Attendance will be available to download and print upon successful completion.
