

# Manual Handling for Temporary Traffic Management Operatives (MHTTMO)

## At a glance...

### Customised Provision

Recognised by: Up To Speed Training and Assessment Ltd and Lantra Awards

## Overview in brief

***This Lantra-accredited Customised Award is exclusively developed and delivered by a Lantra-approved Training Provider, who meets our quality standards. The course is specifically tailored to meet learners' needs. For further details about the course content and delivery locations, please contact the Training Provider using the details provided below.***

The minimum age to undertake this course is 16.

This course aims to provide candidates with an understanding of the issues involved with tasks involving any form of manual handling, specific to the temporary traffic management industry. This includes the potential injuries that may be incurred, preventative measures to reduce the potential of such injuries and the possible resulting personal injury claims, and to ensure compliance with the current legislation.

## The finer details

On completion of the course the candidates should be able to:

- Define “manual handling”
- Understand the legislation applicable to manual handling operations
- Understand how manual handling can cause injuries
- Understand the potential issues involved with temporary traffic management operations
- Understand good handling techniques
- Understand the principles for controlling manual handling risk & apply these to a practical situation

## Who should attend?
