

Online Ruminant Faecal Egg Count (FEC) Course

At a glance...

Assessed Customised Provision

Duration Notes: Learners can complete over a duration of 5-10 hours

Recognised by: Lantra Awards

Introduction

Learn how to perform FECs on your ruminant samples. Identify worm eggs, lungworm larvae, fluke, giardia, coccidia and cryptosporidia.

Overview in brief

This Lantra-accredited Customised Award is exclusively developed and delivered by a Lantra-approved Training Provider, who meets our quality standards. The course is specifically tailored to meet learners' needs. For further details about the course content and delivery locations, please contact the Training Provider using the details provided below.

The minimum age to undertake this course is 16.

The finer details

Gain knowledge of the parasites that affect the health and production of ruminants. Learn how and when to treat, along with control and prevention management.

This self-paced course covers sheep, goats and cattle and is delivered by means of video presentations, quizzes and assessments.

Who should attend?

Farmers, Smallholders, SQPs, Vets

What will be covered?

- Understand the science behind FECs and the different techniques that can be used to assess various parasites
