

Lantra Awards Level 3 Diploma in Work-based Fencing

At a glance...

Qualification

Recognised by:	Fencing Industry Skills Scheme/Construction Skills Certification Scheme (FISS/CSCS)
Prerequisites:	There are no formal requirements for entry to this qualification.

Introduction

Gain a nationally recognised Level 3 qualification for supervising the installation and maintenance of fencing systems.

Overview in brief

The Lantra Awards Level 3 Diploma in Work-based Fencing qualification has been developed to provide nationally recognised certification for those working in the fencing industry who have responsibility for supervising the installation of fencing and fencing components.

The finer details

This qualification will allow you to develop and demonstrate your competence as a fencing installation supervisor to work safely, effectively and efficiently, reducing unnecessary risks to yourself and others.

Further information relating to content of this qualification can be found in the Lantra Awards *Level 3 Diploma in Work-based Fencing Qualification Specification*.

Who should attend?

This qualification meets the requirements set by the industry for those seeking to supervise

the installation of fencing and fencing components and provides a clear progression route for those already working in the fencing industry who wish to further develop their competence and skills.

In order to generate the evidence required for achievement of this qualification, you must be working as an operative or supervisor within the fencing sector or have a work placement where you will be supervising the installation and/or maintenance of fencing.

As you'll appreciate, this qualification contains some practical activity that will require a minimum level of fitness. If you have any concerns, please speak to your Provider.

What will be covered?

This qualification contains the knowledge, skills and behaviours relating to the following:

- Promoting, monitoring and maintaining health, safety and security in the workplace
- The principles of installing fencing systems
- Managing the establishment of lines and levels
- Controlling the deployment of materials and components
- Controlling resources in support of fence installation
- Organising the fencing site
- Monitoring the progress of fence installation
- Monitoring the quality of fence Installation
- Inspecting fencing to identify defects and repair options
- Maintaining and enhancing productive working relationships
