

Accredited Marshal Training (NI)

At a glance...

Assessed Customised Provision

Recognised by: Lantra Awards

Introduction

The course is designed to train volunteers as accredited road marshals for adoption by event organisers to manage traffic at road-based events.

Overview in brief

This Lantra-accredited Customised Award is exclusively developed and delivered by a Lantra-approved Training Provider, who meets our quality standards. The course is specifically tailored to meet learners' needs. For further details about the course content and delivery locations, please contact the Training Provider using the details provided below.

The minimum age to undertake this course is 16.

The course is supported by the Roads Department and the Police Service for Northern Ireland and is designed to enhance and improve the safety of participants at events on or near public roads.

The finer details

Stage 1 – One day Classroom training session – This session will be the main part of the learning for participants and will include theoretical and practical information on how to deploy safely to stop traffic at an event. The training shows participants how to respond to numerous scenarios, including conflict from drivers or an accident/incident. The training outlines the legislation and support in place for marshals, including risk assessing their role and junction and how to use a radio. All attendees will be required

to take a written knowledge check and a practical assessment before being considered as competent for the role.

Stage 2 - This part of the process is designed to ensure continuous development and retention of the skills as an Accredited Marshal. Every student will be required to complete two reflective logs annually to show evidence of practical deployments and continuous learning and competence in the role.

Who should attend?

This training programme is based on a new scheme delivered into Northern Ireland to help with traffic management at events.

With the introduction of new signage into local legislation that allows volunteers and staff to stop traffic at an authorised road-based event.

This training is open to approved staff and volunteers who are delivering events where participants may engage with live traffic that needs to be managed and controlled as the participants pass or use road junctions.

What will be covered?

At the end of this learning package the participants will be able to ...

1. Outline the role and legislation that supports the role of an Accredited Marshal.
2. Discuss the Health and Safety requirements for safe deployment at a junction or location.
3. Describe how to safely deploy at a junction or location and how to facilitate traffic through that point.
4. Demonstrate safe procedures when Stopping Traffic and communicating with drivers.
5. Outline initial action(s) when dealing with an accident or incident at a junction.
6. Discuss how to deal with potential conflict situations at their point.
7. Demonstrate correct radio protocols to be used during an event.
8. Demonstrate knowledge and understanding of learning through successful completion of a knowledge check.
