Customised Provision

Recognised by: CPD

Introduction

A comprehensive training program designed to equip individuals with the skills and knowledge required to excel in the roof cleaning industry.

Overview in brief

This Lantra-accredited Customised Award is exclusively developed and delivered by a Lantra-approved Training Provider, who meets our quality standards. The course is specifically tailored to meet learners' needs. For further details about the course content and delivery locations, please contact the Training Provider using the details provided below.

The minimum age to undertake this course is 17.

This training program, accredited by leading industry bodies, is designed to equip individuals with the skills and knowledge necessary to become proficient in the exterior cleaning industry.

The finer details

Through a combination of theoretical instruction and hands-on practice, participants will learn essential techniques, including effective pressure washing methodologies and the proper use of specialized tools. We will delve into the application of biocides and other cleaning chemicals and their importance in the cleaning process while ensuring compliance with health and safety regulations.

To facilitate career advancement, our course provides guidance on obtaining industry-recognized accreditations. Participants will also gain insights into the step-by-step process of completing roofing projects, pressure washing projects and gutter clearing projects.

Who should attend?

People wanting to set up exterior cleaning business's.

Existing providers of exterior cleaning services who now wish to provide roof cleaning services in a professional manner and skip years of learning on the job.

Companies with teams that require group training sessions to ensure health and safety considerations are taken into account.

What will be covered?

- Exterior cleaning methodologies for gutter clearing, pressure washing and standard roof scraping
- Tools to accomplish the work – To have handled and used the tools to support the three main cleaning methodologies
- Chemicals to use, why and safe, label compliant application thereof
- Health and safety requirements – To understand what the law requires in offering this service
- Accreditation – An appreciation for the need thereof to demonstrate competency and proficiency
- The on-site process from arriving on the day, to completing the work
