

Wildfire Awareness and Safe Systems of Work (Skills Card)

At a glance...

Customised Provision

Delivery Method: Classroom and practical

Recognised by: Lantra Wales

Introduction

This course is designed to train landowners and land managers how to prepare in the event of wildfire and how to safely respond and tackle wildfire whilst working alongside the Fire Service.

Overview in brief

This Lantra-accredited Customised Award is exclusively developed and delivered by a Lantra-approved Training Provider, who meets our quality standards. The course is specifically tailored to meet learners' needs. For further details about the course content and delivery locations, please contact the Training Provider using the details provided below.

The minimum age to undertake this course is 16.

Candidates will receive training in how to respond to a wildfire scenario, how to plan for wildfire, the importance of teamwork and how to implement Safe Systems of Work in a wildfire scenario, whilst working in large and smaller teams.

They will also learn the importance of equipment checks and how to effectively tackle wildfire with the equipment that they have (how best to deploy). No actual firefighting will take place and no fires will be lit. Simulated scenarios will test candidates and effective teamwork.

The finer details

The course modules include:

1. Prevention
2. Planning
3. Operational Tactics

4. Safe Systems of Work
5. Health and Safety
6. Equipment Training

Who should attend?

All landowners, land managers and any persons that may be involved in a wildfire scenario.

What will be covered?

The purpose of this course is to train candidates (land managers, owners, employees etc.) how to deal and prepare for a wildfire scenario. The course is primarily focused on Health & Safety, Planning and Preparation and the Practical Skills required that will allow the candidates to use appropriate equipment and techniques to safely put out wildfires.

There are 6 key learning outcomes of this course which are:

- Prevention
- Planning
- Operational Tactics
- Safe Systems of Work
- Equipment Training
- Health and Safety
