

Lantra News Update:

Subject: Learner Photographs

Date 14th December 2020

Please remember to submit a learner photograph with their application. With the change onto the NHSS Smartcards and specifically NHSS 12 where the Learner's identity cards now last for 10 years it is very important to ensure we are using the most recent likeness of the Learner for clarity.

All Learner photography submitted must be of Passport quality. If we are not able to use the photograph that will most likely mean we cannot process the application. Please do not crop the photograph Lantra will crop them down to the correct size to use on the cards

Photographs can either be emailed or posted to Lantra alongside the Learners application. If you do opt to sending Lantra an electronic version, you must provider the learners name and Lantra Identity number as the file name.
