

Safe Use of Pesticides (E-Learning)

At a glance...

E-Learning

Delivery Method:	Online
Prerequisites:	This course contains audio and will require the use of speakers or headphones.

Introduction

Pesticides are widely used in agriculture and horticulture but they can be potentially very harmful substances, so a thorough appreciation of safe working practices is vital. Our e-learning course works in conjunction with our classroom based course to give tailor made advice and information for those who are responsible for the storage, handling and application of pesticides.

Overview in brief

This course is in 2 parts with the 1st part being the knowledge only e-learning modules. Here you can learn the information you need for the Safe Use of Pesticides Qualification.

The finer details

You can log in and out of the course as often as you like and you don't need to complete the course in one go. You will need to complete each module in order before you can access your certificate.

You will need to take your qualification with a Lantra Approved Assessment Centre. Details of our centres can be found at the end of the course.
